Explore, deepen and develop your capacity to lead and experience the Spiritual Walks & Dances of Universal Peace in this 3-year program. Meeting one weekend in year 1 and three weekends in year 2 and 3, we will explore the fundamentals for leading the Dances of Universal Peace, including concentrations in sound, breath, music skills, movement/body awareness, and unity of religious ideals, with a special emphasis on Astrological, Wazifa, Body Center, Element and Tassawuri Walks training. We will practice to enhance our capacities of magnetism and vitality, work with energetics, stay in presence, communicate more authentically, and lead from intuition rather than concept. We'll explore our roles as community builders/harmonizers, the meaning of the mentor-mentee relationship, and what it means to represent lineage.

The series is open to current and aspiring leaders as well as dancers, musicians and mentors who wish to deepen in their relationship to sacred dance and walk. We encourage aspiring leaders to choose a mentor from the Mentor Teachers Guild of the DUP if they wish to work toward certification in the Dances.
